Resource Name		Garima Singh				
Mentor Name		Amandeep				
Category	Topics to be covered	Duration (Hrs)	Trainer	Comments	Tasks / Activities to be done by the resource	
Domain	AP 200 Course	16	Online		Understand the Agility flow and basics (Precondition: Understanding cloud basics)	Course Done
Domain	Cloud Computing	4		Cloud Operating Models	Virtualisation, Models, networks, Locations, Different cloud providers in the market, about cloud offerings.	
Process	Overview of Agile Process	2			About Scrum, planning and estimations	i have worked with Agille (Average)
	GitHub and Sourcetree	8			git clone, pull, push, commit, feature branch, merge, rebase, Activites: create repo,clone repo,commit,push to dev branch,create feature branch,rebase from dev branch rebase from feature branch,etc.,	i have knowledge on Github(poor)
Technical	XML / XSD / JAXB / JSON	8			Understanding of xml, xsd, jaxb and json	I KNOW (Expert)
Technical	REST API	8			Diff between SOAP and REST. Developing REST client,developing REST API using annotations,REST Client using chrome plugin,Error codes,Header types,REST Http methods. Hands on activitiy on above.	i KNOW REST (Average)
Technical	Linux Commands	2			Basic linux commands to work on mac	i know some LINUX Commands (Poor)
Technical	Java Collections	8		Annoations, Generics, Enums	Hands on creating annotations, generics, enums.	i Know (Expert)
Technical	Asynchronous Communication Concepts	8			Understanding of Agility Async Framework	i know AJAX(Expert)
	OSGi Framework	4			Understanding of OSGI Framework, Karaf server.	
	Rabbit MQ, ZooKeeper	4			undertanding of Rabbit MQ, Zookeeper, Basic commands to start stop zookeeper	
Technical	SPOCK (Unit Testing)	8			Groovy Scripting. Hands on programme of spock with some java test class. install groovy plugin in eclipse.	I Know Junit(Medium)
Technical	Coud Adapter API/Methods from Wiki	8				
	Agility Oprations	4				
	Adapter Testing	4				
Technical	Adapter Testing	4			Execution of test cases for any cloud provider. E.g. Dogfood env and overview of tools	
	Understanding of ServiceMesh resources	2			Understanding of Wiki, JIRA, Confluence,Rally	i Know JIRA(Expert), Kowledge on Rally(Poor)
	Code Walkthrough	4		Overview	Adapters, IO, Core, Bridge, Agility, SDK Package	
	Agility Installation in the Mac	16			Refer wiki for details	
	Agility Env setup using Github	16			Pull agility code and other repos from github.set up project in eclipse	i have Knowledge on GitHub(Poor)
	Understanding of tools	2			Eclipse, Sourcetree, hipchat etc.	i know Eclipse(Expert)
	Remote Code Debugging Skills	4
